2017- 2018

PROJECTS

Word & Character Counter | React.js

- Allows the user to input any word, sentence, or paragraph.
- Displays the total **number of characters** (including spaces) in real-time.
- Displays the total **number of words** entered by the user.
- Automatically updates the counts as the user types or edits text.
- Built using **React.js hooks** (useState) for state management.

Calculator | React.js

- Supports basic arithmetic operations: **addition, subtraction, multiplication, and division.**
- Interactive button-based UI for easy input.
- Real-time calculation display as the user inputs numbers and operators.
- Implements **React state management** to handle user input and results.
- Clear button to reset the calculation instantly.

EXTRA-CURRICULAR ACTIVITIES

- Photography.
- Art and Craft.
